KENMURE ARCHITECTURAL REVIEW COMMITTEE (an Operating Committee of)
KENMURE PROPERTY OWNERS ASSOCIATION

Solar Panel System Approval Request

Solar Panel Systems are permitted by Federal Government Code 65850.5 and Henderson County (Section SR 2.11 of the Henderson County Land Development Code) for all Kenmure lots. Kenmure limitations include:

- panels shall be mounted flush with pitched roof surfaces and arranged together in no more than 2 groupings – panels may be ganged together with DC batteries to achieve an “off the grid” status.
- panels shall have anti-reflection coatings and the glare shall not affect vehicle traffic on roads or other Kenmure residents.
- tree removal to improve efficient operation will not be considered or condoned.

Submit with this application a lot plan showing the location of the proposed solar panel system and details concerning meeting the above Kenmure limitations. Include a description/specifications of material, showing color. Attach a photograph of the side of the house, condominium, villa, or cottage where the solar panel system is to be installed.

On receipt of this application and required submittals, the KARC will review same at a regularly scheduled meeting, and give its decision for final action, normally within two weeks.
