

# Officer Siri Hallock and Officer Christopher Lamb

BY MARAL JOHNSON

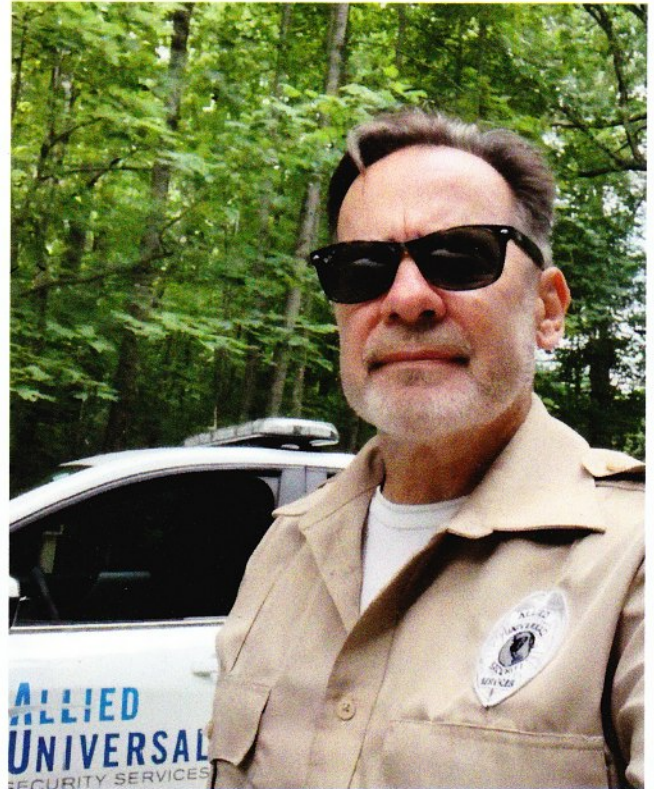

The Kenmure Property Owners Association (KPOA) is very fortunate to have a hard-working team of Security Guards. Although they are contracted through Allied Universal and wear the Allied uniforms, their dedication and commitment to all the residents of the Kenmure community is second to none. These dedicated and diligent guards not only serve to verify passes for every single vehicle that enters through our gates every day (appx. 350). They also go above and beyond in many other ways that many residents might not be aware of. During these next few months, the KPOA Security Committee will be highlighting different Security Guards, in an effort to feature some of the work they do, and how much they appreciate working in this community.

## OFFICER PROFILE OF SIRI HALLOCK

Siri was born in Mississippi and started working at Kenmure on Jan. 10, 2019. Her past work experience included security, being a care provider, and a server. Her outside interests are spending time with her grandson, and doing new adventures together.

- My most memorable moment while working at Kenmure was an incident that I responded to with an unresponsive resident. It is always heart-wrenching to lose one of our own.
- My favorite location in Kenmure is the East Rock Court cul-de-sac, because it has a million-dollar view.
- My favorite part of the job is that I love interacting with our residents when I can get a quick update on how they're doing. Although, as busy as we stay, that doesn't happen often.

## OFFICER PROFILE OF CHRISTOPHER LAMB

Christopher was born right here in Hendersonville, and started working at Kenmure on November 7, 2021. His past work experience included being an apple farmer, plumbing, and a developer. His outside interests playing pickleball, swimming, and physical fitness.

- My most memorable moment was when I received a call from a neighbor of a resident who was not feeling well, and EMS was called. I left the Guard house immediately and went to the address provided by the neighbor. As soon as I arrived, I knocked on the door and the resident waved for me to enter their home. The resident was clearly not feeling well, so I assisted them to lay down and helped them in any way that I could while we waited for EMS to arrive. Once EMS arrived, they took over. Best thing was a visit from the resident at the Gate house soon after, driving and looking great. By far, this is the best memory of the almost 3 years I've been at Kenmure.
- My favorite location in Kenmure is the Bellshire area, because it is extremely nice and different from many of the other sub-divisions.
- My favorite part of the job is that my co-workers and the residents are extremely nice, and I have good interactions with residents and their guests. I enjoy assisting everyone with whatever I can.
